

Joe Hunt & Associates, LLC

Mid-Stream Services

LAND SURVEYING

Our team of land surveyors is equipped with the latest technology available to the industry. Our communication devices and connectivity allow us to send and receive data directly from the field to the design office, reducing turnaround time.

ENGINEERING

Our design team has the knowledge, skill and experience to work with you to complete your project. With cutting-edge technology, such as AlignDB, we can generate your mid-stream plans faster and more efficiently than our competitors.

REGULATORY COMPLIANCE

Our experienced staff has a proven track record with regulatory agencies that will allow you to move seamlessly through the permitting process.

Joe Hunt & Associates, LLC is a local firm with turn-key solutions to meet your needs for engineering, land surveying, biological studies and wetland delineation services. We are a trained user of the AlignDB software program, an innovative solution for pipeline data management and automated sheet generation.

Meet Our Hardworking Midstream Team!

Joe Hunt & Associates, LLC is a team of thirty-five professional staff, independent associates and companies with local ties. Our management team has a reputation of simply listening to you and delivering on time, not over-complicating problem situations.

**Joe Hunt, PLS, PE
President**

Joe Hunt is the President of Joe Hunt & Associates, LLC. He is a registered Professional Land Surveyor in Pennsylvania and Professional Engineer in both Pennsylvania and New York. Joe formerly worked as a Vice-President and Manager of a mid-size land development firm near Philadelphia before starting his own firm. He brings 16 years of experience on a variety of projects and serving a variety of clients. He has been serving oil and gas clients since November 2008.

**Nate Tompkins, PE
Project Manager**

Nate Tompkins is a registered Professional Engineer and the Engineering Team Leader with Joe Hunt & Associates. He has completed the DEP training to expedite ESCGP-1 permits. Nate has extensive experience with large-scale construction projects and serves as a primary point of contact for our clients. He will manage and coordinate your project in such a way that it moves through the survey, design, permitting, construction layout and final construction phases with timely, effective communication.

**George White
Senior Biologist**

George White serves as our Senior Biologist and leads a team of two biologists. He brings 18 years of professional experience to Joe Hunt & Associates. George writes Wetland Delineation Reports in accordance with the requirements of the Army Corps of Engineers. He also has GIS experience and creates survey maps using mapping-grade GIS. Our technology allows us to provide a seamless flow of data from field locations to the design office, saving time and money.

**Chad Strong
Survey Crew Leader**

**Sara VanCott
GIS Specialist**

**Chris Sespico, PE
Project Manager**

**Patrick Boggs
Regulatory Specialist**

Chad Strong is the Pipeline Survey Crew Leader for JHA. He brings 13 years of experience, most recently working on pipeline projects in the Marcellus Shale region.

Sara VanCott is our Geographic Information System Specialist. She comes to us with several years of experience with ArcView GIS while serving internationally with Wycliffe Bible Translators. Sara brings her valuable cross-cultural experience and communication abilities to JHA as a leader of the GIS group and the clients we serve.

Chris Sespico is a Registered Professional Engineer with JHA, and is a primary point of contact for our clients. He brings several years of experience with large-scale construction projects and brings a vast knowledge to the JHA Midstream Team.

Patrick Boggs is a Regulatory Specialist with JHA, specializing in the permitting of oil and gas projects. As a former employee of the Department of Environmental Protection, Patrick brings a valuable insider's perspective to the permitting process with regulatory agencies.
